

The Many Victims of Ronaldo

Intro

We are going to list these 7 Ronaldo victims. In order of closeness. Beginning with complete strangers and ending with family members.

Starting with one of the most serious cases we have Kathryn Mayorga.

Stranger

Ronaldo was enjoying his summer break in Las Vegas. When he met school teacher Kathryn Mayorga in Rain nightclub, where he invited her to his section.

After talking and dancing in the club together, Ronaldo invited a group of women alongside Mayorga to an afterparty held in his penthouse apartment.

After arriving at the suite, all the girls decided to go in the hot tub. Mayorga headed to the bathroom to change into her swimsuit and join the others. It's at this point that she claims Ronaldo made unwanted advances, ultimately resulting in him sexually assaulting her.

Mayorga's lawyer says this event has dramatically altered her life.

Ronaldo maintains the position that the engagement was entirely consensual and that she saw the encounter as an opportunity.

Fan

And while Kathryn Mayorga happened to be an unfortunate victim of Ronaldo's off-field antics, the same can't be said about Charlie Silverwood.

Back in 2013, Bournemouth faced off against Real Madrid in a friendly match. Real Madrid won with a 6-0 victory, but it was another incident that grabbed the attention of the newspapers.

As the ball came towards Charlie he realized it was not possible to duck out of the way.

[0:25 to 0:44](#)

When the game ended, Charlie underwent wrist surgery. Once the procedure was complete, doctors made him wear a protective cast for several weeks.

Ronaldo was told about the incident and surprised Charlie with a Real Madrid jersey with hand written signatures from the entire team.

Charlie even got a call from Real Madrid club president Florentino Perez who wished him a speedy recovery.

Rival

And while Charlie can easily put the incident behind him, Ribery's experience will remain in his memory forever.

Former French footballer and Bayern Munich legend Frank Ribery was on the receiving end of Ronaldo's dominance in 2013.

Ronaldo controversially won the Ballon d'Or award for best player of the year ahead of Ribery, who was tipped to win the award.

Ribery led Bayern Munich to a historic treble of UEFA Champions League, German Bundesliga and DFB Pokal titles, scoring 34 goals. The Frenchman also provided a

pivotal assist to his Dutch teammate Arjen Robben, who scored the winning goal in the European final.

7.51 to 8.35

By comparison, Ronaldo didn't win any silverware that season, although he made up for that by scoring 66 goals for club and country.

Frustrated with the results of the vote, an angry Ribery took to the media to express his shock at the decision. He claimed he was "robbed" of the Ballon d'Or and still admits today that he's upset by what happened.

Since Ribery won the UCL he definitely deserved to win it

Feel sorry for Ribery he won every trophy that he could have won and played brilliant football . It was unfair.

Ribery suggested the strange two week extension for the Ballon D'or voting - as one of the reasons for his unexpected defeat. Something that has never happened before.

Even coaches who voted for Ribery suggested that the voting was "rigged," a claim that has been made many times about the Ballon D'or when there have been controversial winners.

Ronaldo added this second Ballon d'Or to his amazing collection of individual honors. It was seen as a massive triumph for the Real Madrid player.

Justice has been done. Cristiano Ronaldo is unquestionably the best.

Team Mate

Ronaldo has dominated the world of football for over a decade, and you can't blame Ribery for feeling hard done by. As a matter of fact, former team mate James Rodriguez ended up in a very similar position.

The Colombian midfielder rose to fame after a stellar World Cup performance in 2014, where he scored one of the tournament's most iconic goals.

[0.01 to 0:09](#)

The tournament catapulted James to international stardom, with several teams desperate for his signature. He decided to join Real Madrid, and his future looked very bright.

I'm actually glad they bought him, he has so much potential and could turn out to be a pretty amazing player for the team. He's shown a lot of his talent during the World Cup.

YESSSS!! I'm so happy with this transfer!!! 😊😊😊😊 Go James!!! Arriba Colombia!!! 🇨🇴💙💜💛

But what James didn't fully take into account was that the squad was already built around Ronaldo's strengths, as players like Karim Benzema and Gareth Bale mainly supplied the Portuguese superstar with goal scoring opportunities.

James, therefore, struggled to secure a place in the starting lineup, with the combination of niggling injuries and lack of form also working against him.

Frustrated at the limited opportunities, James sought a loan move away from Real Madrid in 2017, eventually joining Bayern Munich for a single season.

[0:28 to 0:34](#)

His career trajectory then took another nosedive in 2020, as he decided to join a mid-table English team.

[0:00 to 0:09](#)

Despite James' best efforts and intentions, his sporting comeback never happened, leaving Everton after making only 23 appearances.

It's so sad how bad his career went after he left Real Madrid... I miss the old James

Friend

Ronaldo didn't do anything wrong here. It was his eagerness to win that made him and the players surrounding him simply undroppable. A desire so strong that he would even put winning ahead of friendships.

Wayne Rooney played with Ronaldo at Manchester United and they became close friends with an almost telepathic understanding of each other's positioning and movement on the pitch.

1.30 to 1.50

So, in 2006, a FIFA World Cup game matched England against Portugal, and the event delivered one of the most gut-wrenching betrayals that football has ever witnessed.

6.42 to 7.00

In the heat of the moment, it can be understandable why Ronaldo's may have reacted like this. Although, what he did afterwards that some fans might describe as unforgivable.

0.36 to 0.42

Some fans seem to think Ronaldo broke the rules of sportsmanship.

@lolipedofin 12 years ago

This is not about club vs country, Rooney is not a nobody to Ron, They knew each other and supposed to respect each other, I don't know whether they are 'friends' or not.. but at least playing in the same club should've gave them a little sense of camaraderie..

But what he did betrayed all that. It is one thing to exploit his weakness, but to actually try to get him out of the game by riling him up, that's just low. I'll do anything for my country as well, except stabbing a friend in the back.

Show less

Years after the incident, Rooney spoke about what he would have done if the roles were reversed.

Ex-Girlfriend

And while some accuse Ronaldo for cheating in games, others accuse him of cheating in real life.

Russian fashion model Irina Shayk was arguably affected the most by Ronaldo's poor behavior.

[1.35 to 1.48](#)

Unfortunately, she was on the receiving end of Ronaldo's questionable morality, with the footballer breaking her heart.

Ronaldo met Irina Shayk on the set of an Armani ad, which led to them dating for five years before eventually parting ways.

With multiple rumors stating the pair broke up because of Ronaldo's unfaithfulness, the footballer quickly became public enemy number one...

Cheating can't be justified

It's crazy how people will find every reason to villainize her when he was clearly the problem..

To make matters worse, word got out that Irina didn't get along with Ronaldo's mother, which is tricky for any relationship.

When the couple split in 2015, Irina reportedly told people who only knew her as Ronaldo's girlfriend to unfollow her on Instagram. This led to her losing 11 million followers.

Family

The relationship propelled Irina's fame in the model industry to new heights. Something that Ronaldo didn't want for his son's mother.

Angel dos Santos Aveiro is a young boy who suffered from his Dad's fame and fortune.

Back when Ronaldo played for Manchester United, he reportedly had a one-night stand with Angel's mother and got her pregnant.

@lammillielopez 2 months ago

She was a one night stand, she was a young server who was in school. He didn't want her aborting so yes, a NDA was signed and a bag was given lol

This forced him to make a pay-off of 10 million pounds to the woman, so that she could remain anonymous and give up any contact with her son.

Although it's extremely difficult for a mother to give birth to a son yet never be able to speak or see him, any meeting between herself and Angel could have exposed her hidden identity.

The good news is, Ronaldo has formed a great relationship with his son over the years.

Being able to make time for his son in the midst of a busy football schedule is the sort of commitment any father should be proud of.

@maybelmagcongey5011 3 years ago

I don't see my favorite player here, I see a dad who showed unconditional love to his child. Such a great man Cristiano, a living good example on what a father should be..

Love how he finds time to spend with his son.

Reports also suggest he's formed a close bond with Ronaldo's current partner - Georgina Rodriguez.

At the end of the day, Ronaldo made the correct decision to take care of his son.

Hopefully, he'll stand by this promise as well.
